Space and Naval Warfare Systems Command Awards Contract

SAN DIEGO — Applied Hydro-Acoustics Research, Inc., Rockville, MD, is being awarded a \$3,326,486 cost-plus-fixed-fee contract for Engineering Services in Support of Surveillance Towed Array Sensor (SURTASS) array engineering development, signal processing development, array performance monitoring, tactical employment decision aids, and efforts in support of Navy Common Towed Array Initiatives for Space and Naval Warfare Systems Command PMW 182. This contract will support the development of future towed array sensor designs, telemetry interfaces, advanced signal processing techniques for twin-line arrays, and development of advanced array performance monitoring capabilities. Work will be performed at contractor's facility in Rockville, MD, and is expected to be completed by 30 September 2002. This contract contains four one-year options, which if exercised will bring the total cumulative value of the contract to \$17,898,874. The contract will initially be incrementally funded with Research and Development (RDT&E) funding in the amount of \$70,000. Contract funds will not expire at the end of the current fiscal year. RDT&E funding will be utilized throughout the contracting period. This contract is a sole source via the Commerce Business Daily. The Space and Naval Warfare Systems Command, San Diego is the contracting activity (N00039-01-C-2249).
